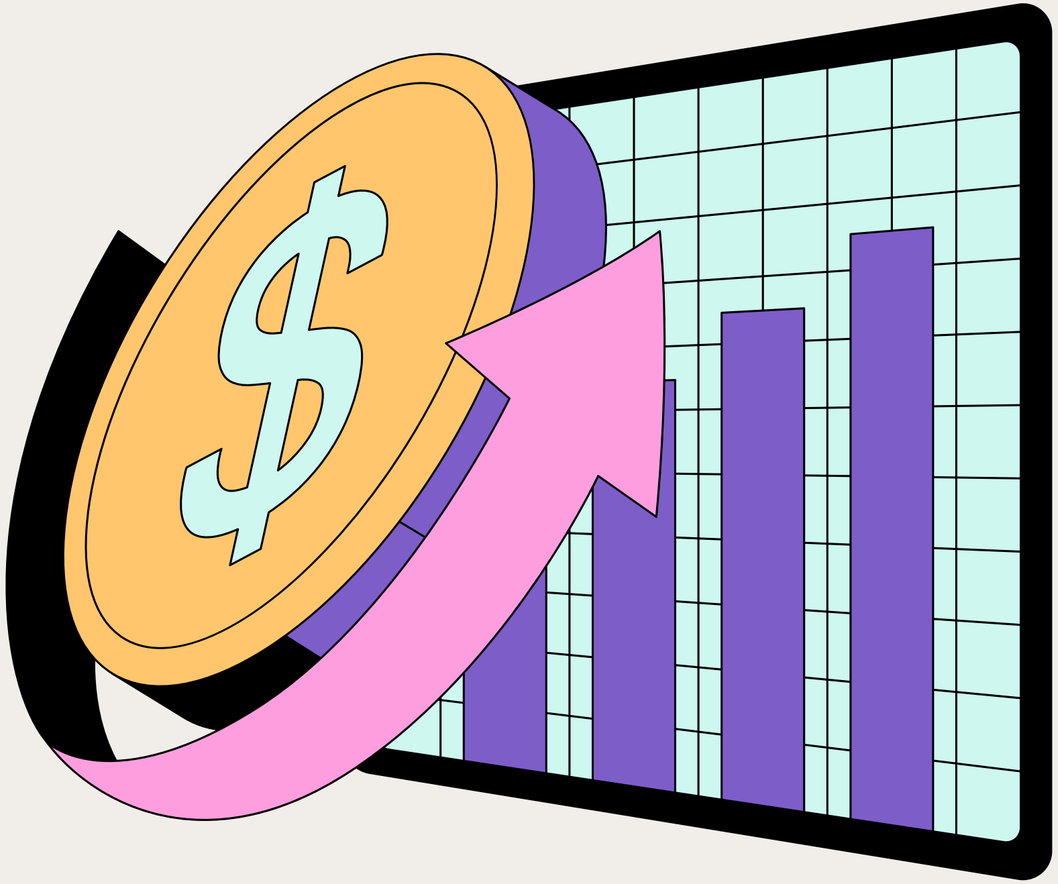
Using Machine Learning for

Stock Price Prediction

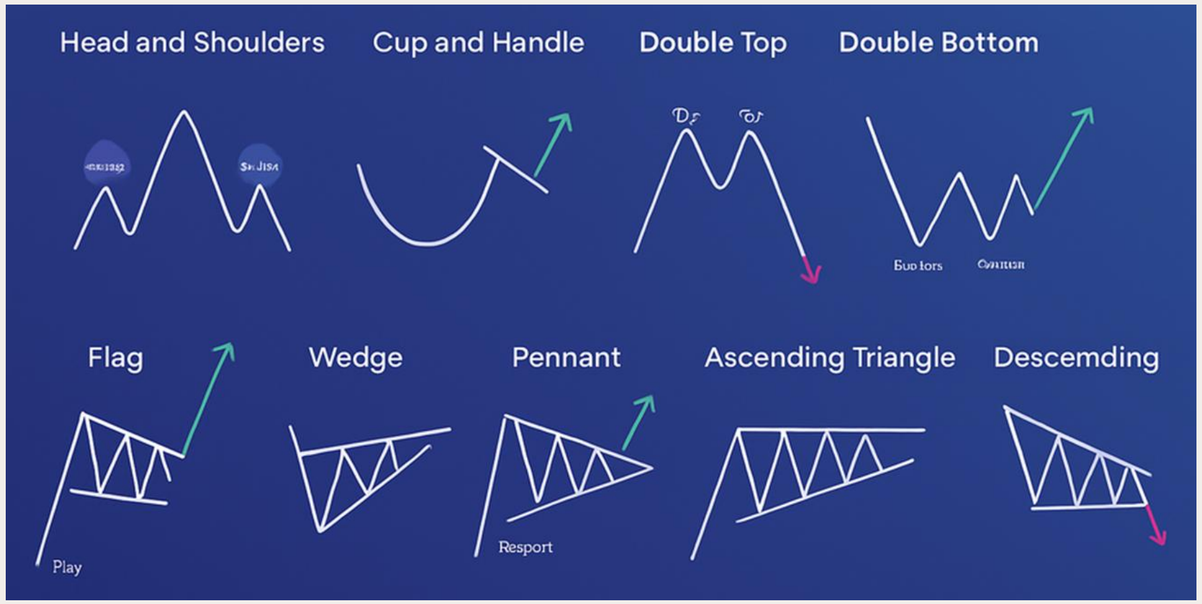


Presented by Dev Luhar.

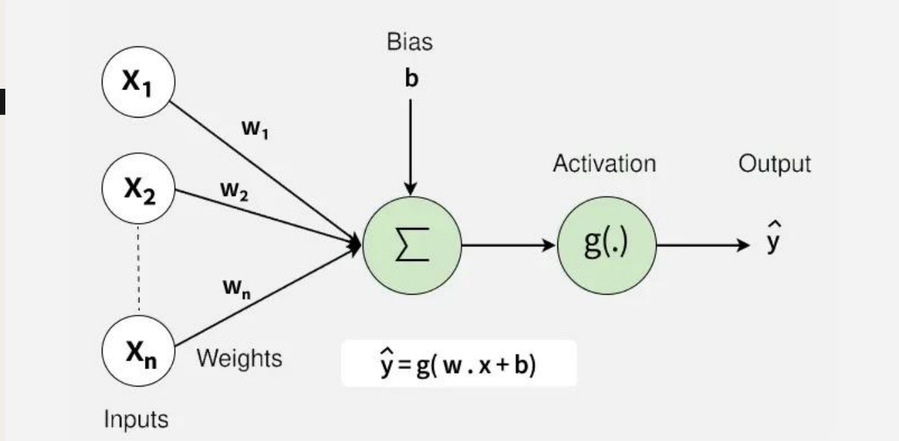
UNIVERSITY OF WARWICK

Can a machine predict tomorrow's stock price?

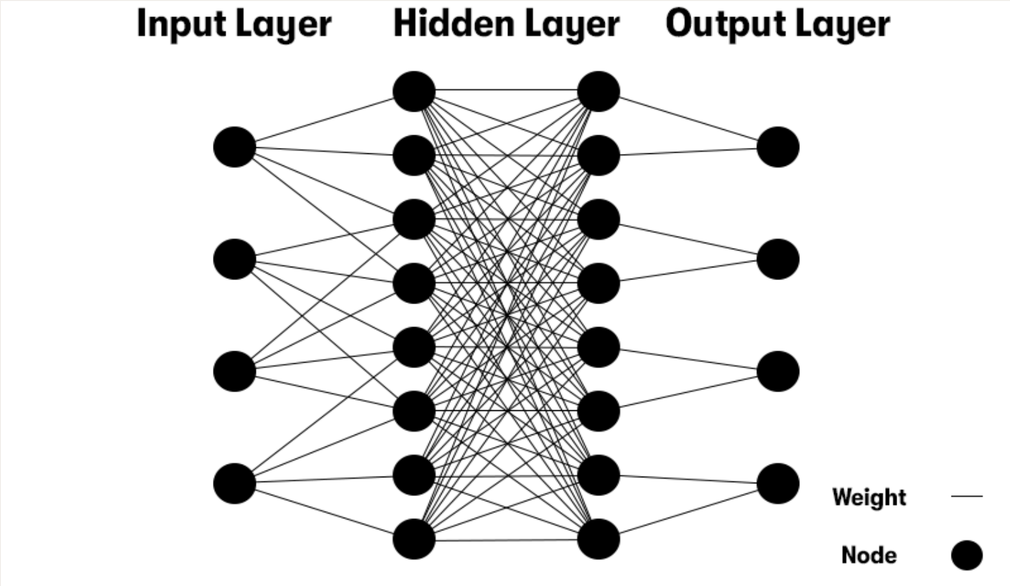
- Price movement
- News headlines
- New policies



WHAT ARE NEURAL NETWORKS

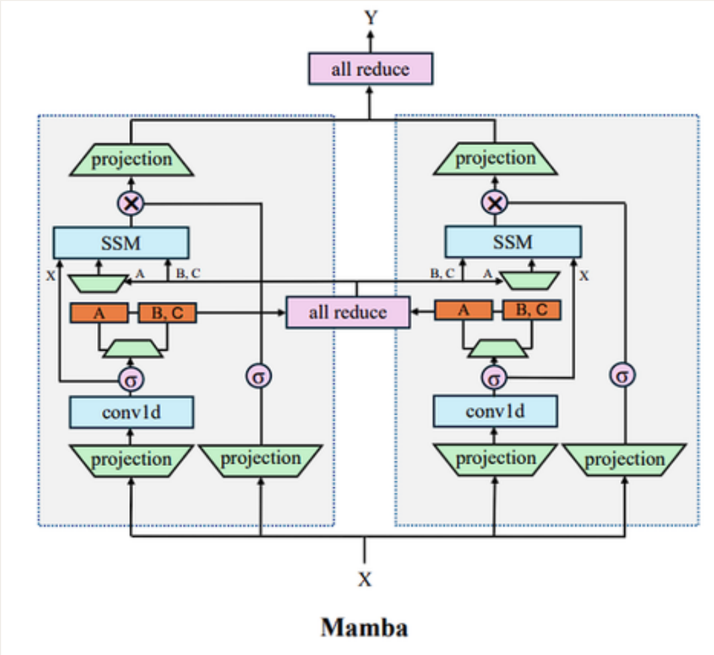


- Learn patterns from data automatically
- Flexible, handles nonlinear and noisy relationships
- Captures hidden interactions influencing stock prices

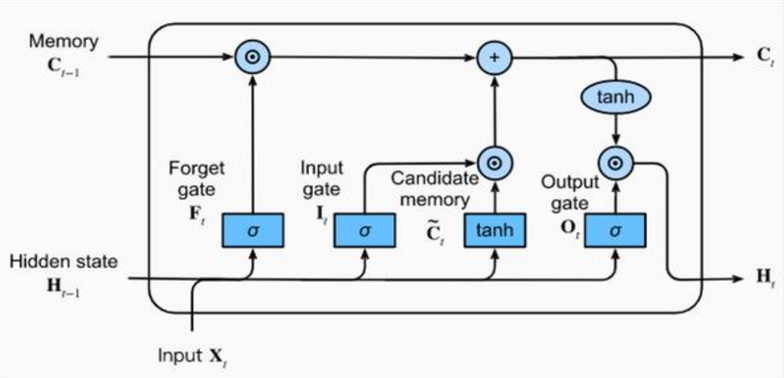


...AND WHY DO WE WANT TO USE THEM?

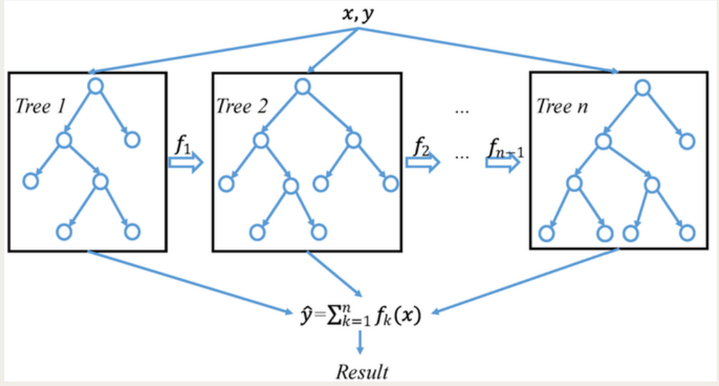
Choosing the Right Model



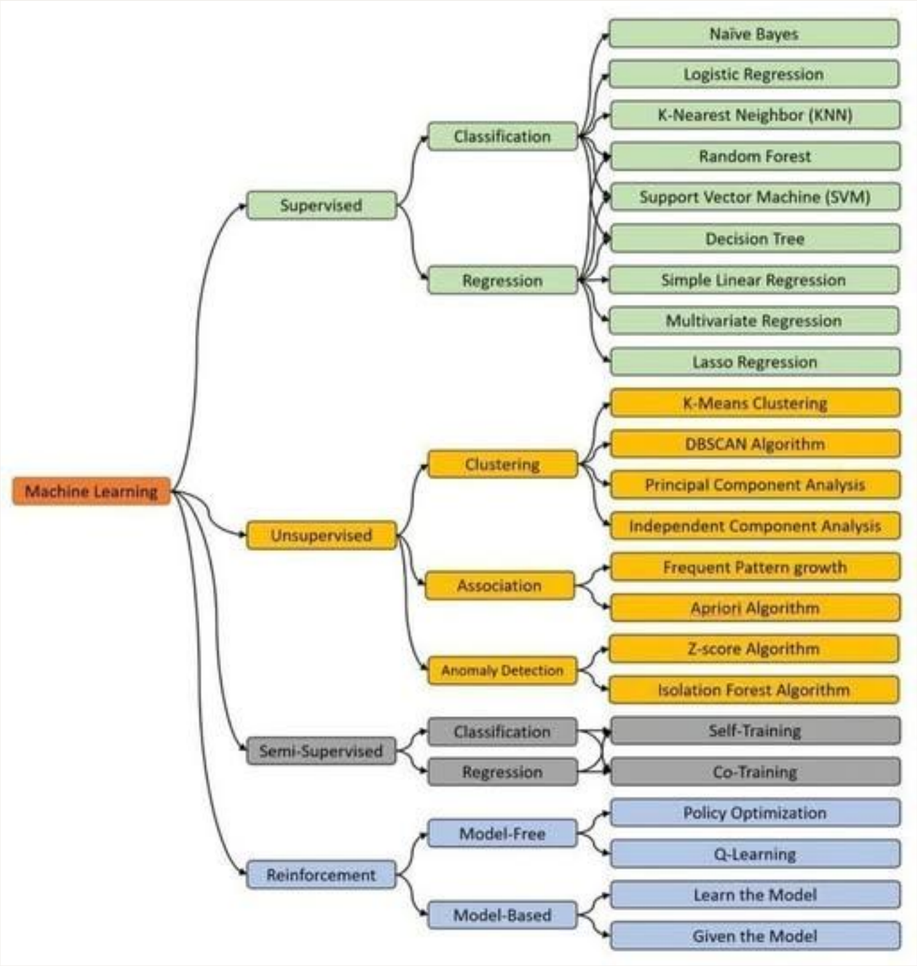
Mamba



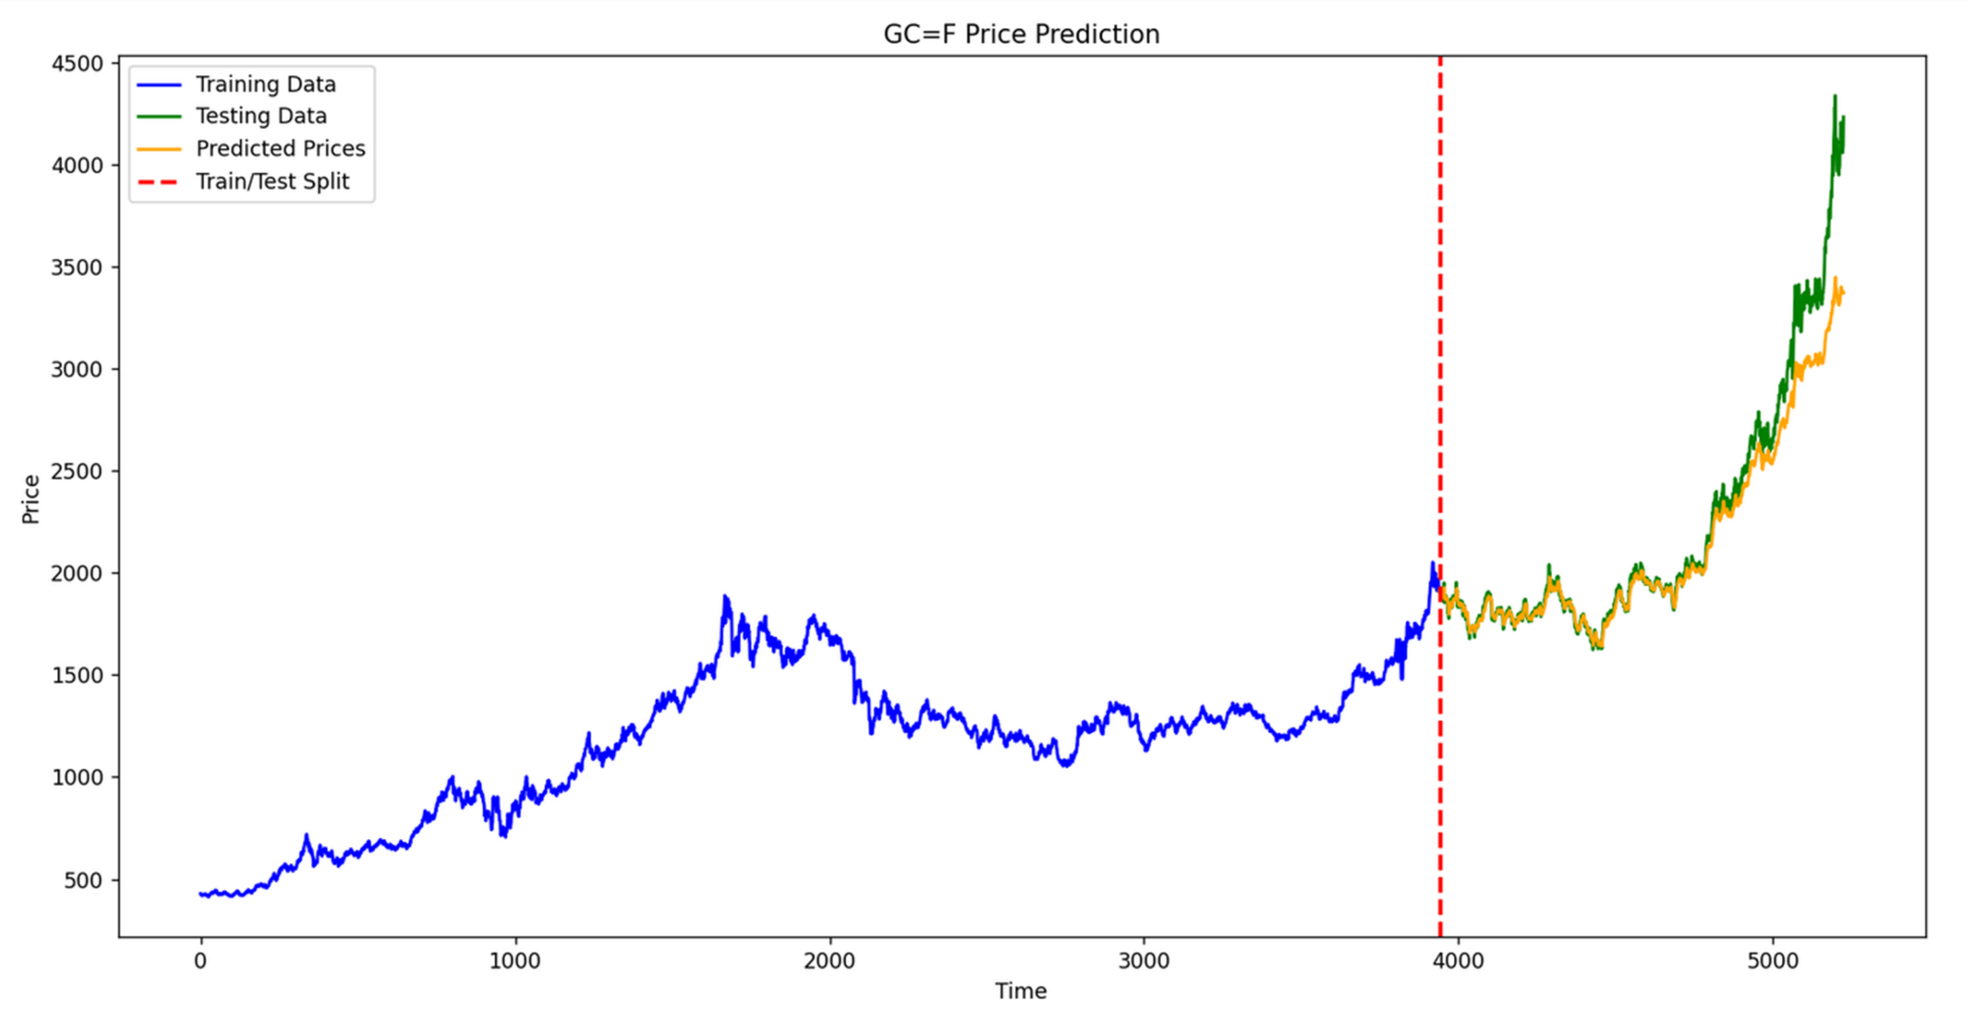
LSTM



XGboost



From Data to Prediction



Gold price prediction using LSTM
